

Unique formulation outperforms other ice melters.

Safer than Salt® Premium Performance Ice Melter is a proprietary formulation of calcium chloride, magnesium chloride and sodium chloride. **Tests have proven that Safer than Salt® Premium will melt more than twice as much snow and ice as most other products in the marketplace.** It works faster and at temperatures when many other products have stopped working.

Safety blue color coating assures visible, complete coverage and helps protect your bottom line.

Safer than Salt® Premium Performance Ice Melter is formulated to **be seen when used.** Most “white” ice melt products disappear into snow and ice. Users tend to over-apply, or worse, under-apply product because they can’t see where it lands. Additionally, in today’s litigation-driven society, Safer than Salt® Premium Performance Ice Melter affords users positive proof that an ice melter is in use.

Environmentally Sound

Because Safer than Salt® Premium Performance Ice Melter melts more effectively than other products, a smaller quantity is needed to remove snow and ice. Consequently, **environmental impact on grounds and vegetation is minimized.**
